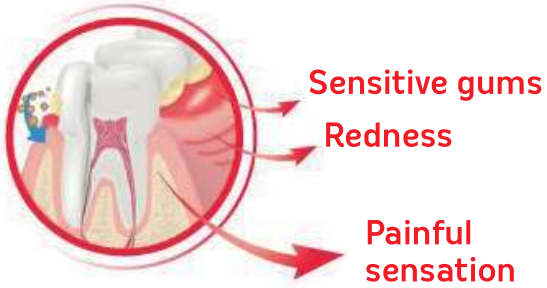
ARE YOUR GUMS HEALTHY?

ELGYDIUM
PLAQUE & GUMS

Gum bleeds during brushing?
Gums receded or feel sore & swollen sometimes?

If yes, you may need to take extra care to improve your gum health.

Symptoms

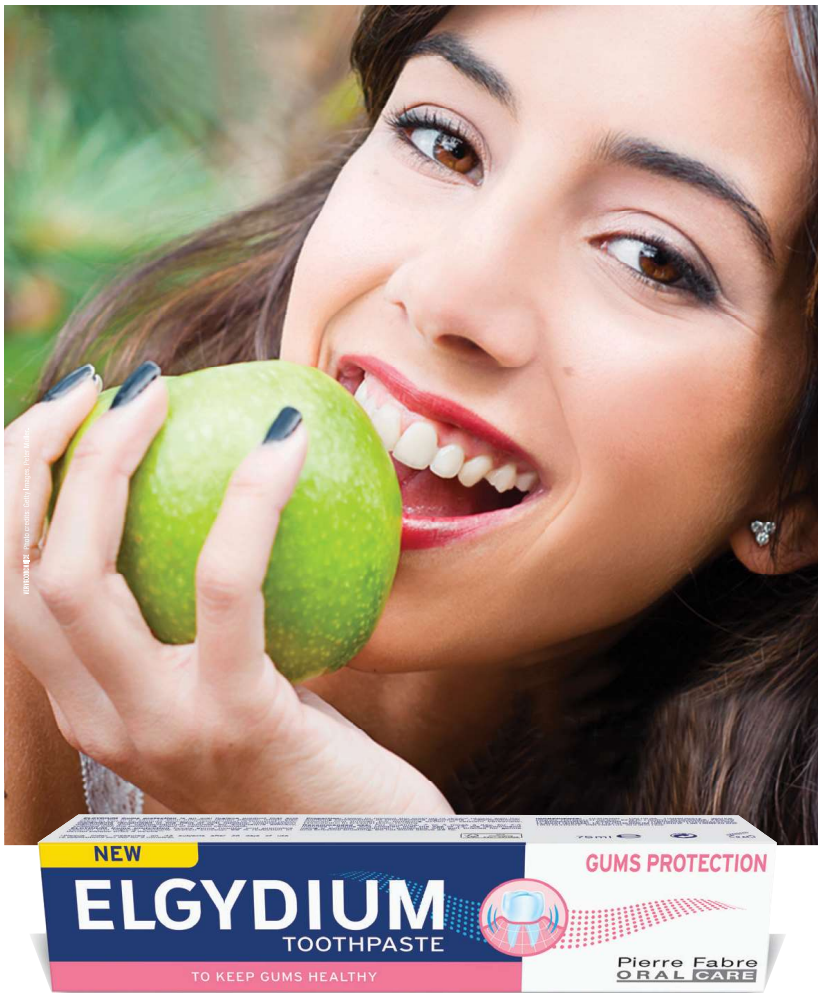


Gum disease is one of the main cause of tooth loss in adults aged over 35. Pregnant women and diabetic patients are prone to having gum problems.

Causes

Dental plaque is the main cause of gum disease such as gingivitis and periodontitis. It is a sticky film of bacteria that forms on teeth and gums. When it is allowed to remain for too long, it turns into a hard substance called tartar. Tartar should be removed by your dentist.

Helps Prevent Relapse of Gum Bleeding



for long term healthy gums.

ELGYDIUM, part of every smile
